

TYLÖ[®]
for the senses

TYLÖ WELLNESS

Enjoy softer warmth, your way

We call it Soft Sauna, the new “soft way” of enjoying a sauna together.

It is just as much a way of life as it is a technical sensation, and yet it takes up just a few square metres of space in your home. Invite your friends and family, select a therapeutic essential oil, let yourself be engulfed in the warmth and gentle steam, socialise and indulge together – let the benefits of Soft Sauna make an impression on your day.

Experience and read more about Tylö Soft Sauna
www.tylo.com

A moment in the sauna, that goes beyond.

Imagine having a family home spa with the resources of a professional spa in a space smaller than 1.3 m², where you can relax together, exquisitely engulfed in steam and aromatic fragrances – and yet also be able to enjoy the relaxing dry heat of a traditional sauna. Choose the sauna cubicle and heater that suits you and the way you want your moment to be. A moment that stretches on and beyond.

Enjoy softer warmth, your way.

Our sauna heater is the heart and the key to how you can enjoy your home spa in several ways – exquisitely surrounded by gentle steam and aromatic fragrances or traditionally in a relaxing dry sauna heat. Because how we want to enjoy our time in the sauna is a personal preference and depends on what we need at the moment, we designed our new combined sauna heater with a water tank and steam generator to handle all preferences.

What's your temperature?

Soft Sauna picks up where traditional saunas leave off. Some people prefer a hot and quick sauna; others prefer to linger for a longer period in mild temperatures to enjoy the gentle steam and aromatic fragrances. See here which temperatures and options are ideal for you and your moment.

Tylö impression

Home spa in a minimum of space.

A furniture in the small bathroom.

Step into the warmth, feel your thoughts clear. Caress your hand over the soft wood and experience the beautifully carved surface. Tylö sauna impression offers an ingenious compact design. Tylö offer prefabricated sauna rooms in all variants, from small models adapted for the bathroom in your home to large, exclusive sauna rooms for hotel suites or corporate hospitality suites. We also give you a range of options as regards fittings and equipment.

Reference projects

Impression gives you freedom of choice.

A sauna from Tylö is an investment in greater wellbeing that provides a guaranteed return, year after year. With that you'll get a place that is just as good for spending time with your family and friends as it is for taking a break from everyday life on your own.

Planning to include a sauna when building a new property or renovating an existing one is simple – there is usually enough space. And it is even easier if you let us here at Tylö manufacture and deliver your sauna room as a prefabricated self-assembly package. If you have any particular wishes that are not included in our regular range, our skilled craftsmen are on hand to build your sauna, individually adapted as regards dimensions and design.

PORHUSET GOTHENBURG

Impression Twin

It's time for twice the pleasure
– A complete home spa in a minimum of space.

Tylö has combined a sauna and steam shower to create an exciting new product that offers unique options for relaxing and unwinding. Impression Twin is the name of this series of beautifully designed home spa. Tylö invites you to relax in a traditional sauna at a slightly higher temperature, enjoy a moment of pleasure in a milder steam sauna or unwind in a soothing steam room. The ingenious, space-saving design also incorporates a shower.

Tylö Impression Twin 130 /1309, white

Tylö Impression Twin 130/1309 , black

Tylö Impression Twin

Impression Twin is based on the successful Impression series. The new Twin series is constructed with the same uncompromising standards of quality and design and offers many new and exciting layouts for a wide choice of installation options.

Tylö Impression Twin

- sauna steam and shower.

Sometimes one and one makes three - just as in this case. The legacy of the Impression sauna and the Impression steam room can be seen clearly in the design and features.

Yet this combination has created a whole new product. The concept of the sauna room is taken to a completely new level by the versatility and range of options.

A flexible system.

The Impression Twin SQ comes with an extra stool. All of them communicate that distinctive feeling of quality and luxury that has become a hallmark of Tylö's Impression series.

Impression Sauna

IMPRESSION 1515/c

A small sauna for the small bathroom

Tylö's Impression sauna range takes up a minimal amount of space from as little as 1.3 m². This sauna solution can contain both a traditional sauna and a gentler steam sauna. It's a revolution in home spa design, compact enough to fit in even a small bathroom.

The sauna cubicle comes complete with two sauna benches at different levels. The lacquered aluminium profiles of the frame conform to a registered design that ensures maximum versatility within the unique Tylö system. They simply clip together, so no screws are needed for assembly. The sleek lines of the design and the detachable jalousie are a joy to behold – and simplicity itself to clean.

Impression Steam i130 & i170

IMPRESSION I170

Maximum freedom in a small space

Tylö's i170 and i130 steam showers offer a spa experience with a steam bath and shower. The steam showers are perfect in the modern bathroom, and embody a distinct Scandinavian design. Both steam showers are flexible solutions that can easily be adapted according to the existing layout. They are well suited to small or medium-sized rooms and for anyone who wants to enjoy shared moments of bathing bliss.

Tylö steam bath with shower i130

Shower and steam bath measures 1325 x 925 x 2100 mm (width x depth x height) and requires just 1.3 m² of floor space. Accommodates one person at a time.

Impression Steam i110/c

IMPRESSION I110C WHITE

Tylö steam shower i110/c is built around the same unique profile system as other steam showers in Tylö's Impression range, and is made of aluminium, glass and high-gloss acrylic.

A complete home spa in the smallest of spaces

Within a minimum space of less than 1.3 m², Tylö has created a home spa solution for corner installation that contains both a relaxing steam bath and a conventional shower. A revolution in home spa design, it is compact enough to fit in even a small bathroom. The steam bath is a gentler experience. The atmospheric humidity inside is at 100%, yet the temperature is only 40-45°C, inviting you to relax for a little longer.

Tylö's steam bath with shower is now available with a floor tray. The structure is made entirely of cast marble, an extremely stable material with a surface finish that ensures good water run-off.

The floor tray has adjustable feet and an integral water trap. The tray entails an additional height of 100 mm, producing a total external height of 2200 mm for an Impression. The tray is also supplied with a cup for waste water that is mounted on the steam head. The cup protects the tray and guarantees its function.

IMPRESSION I110C BLACK

Your freedom of choice is part of our design plans

Walls, glass sections and doors can be assembled in a variety of different ways. The walls can be installed reversed, and configured in many different ways to suit the layout of your particular bathroom. You can also place all the interior fittings wherever you wish.

Steam column tx202

STEAM COLUMN T202 G, GLASS SECTION 398 and GLASS DOOR 60G VIEWED FROM THE OUTSIDE

Just steam – nothing else

Tylö's existing systems for steam bath solutions in niches are now being supplemented with a pure steam column with no shower. A perfect solution for people who already have a shower and only want to use the steam room for wonderful, soothing steam baths.

The product range has been specially designed to convert an existing niche into a steam room, and comprises a steam column, glass sections and a 60g glass door.

Steam column tx202/g

Tylö's steam column tx202/g is a truly flexible solution developed specially to convert a niche into a steam room. The actual steam column can easily be combined with suitable glass sections and a steam door to achieve a fully tailored solution. The steam column is controlled with the control panel on the outside and is fitted on the inside with a steam head and a handheld shower. The steam column is also available as a pure steam column with no shower, called t202/g.

The product range includes:

| | |
|-----------------------|----------------------|
| Steam column tx202/g | |
| Steam column t202/g | |
| Glass section 398/202 | Size: 1386 x 2020 mm |
| Glass section 588/202 | Size: 1576 x 2020 mm |
| Glass section 778/202 | Size: 1766 x 2020 mm |
| Steam door 60g 202 | Size: 780 x 1870 mm |

Steam column tx202/w

The new tx202/w steam column is a freestanding steam column with both steam and shower as standard. The steam column makes it possible to convert a niche into a complete steam room and can be combined with associated glass sections, steam door and plastic domes. The column includes both a handheld and a main sprinkler head, as well as a steam head. The main shower head can be attached vertically, from 2180 mm to 1960 mm, as well as swivel to the right and left. The minimum installation size is 2140 mm. The column is also equipped with shelves for storage as well as Tylö's new h1 control panel, which operates the steam column via touch-control.

The product range includes:

Steam column tx202/w (Art. 8900 8140)

Control panel h1

Electronic control panel, equipped with touch-control that not only displays the temperature and running time, but can also be programmed to start up to 24 hours in advance and run for between 0 and 23 hours. The control panel allows you to regulate lighting in the sauna, set the maximum temperature, switch between Fahrenheit and Celsius, use a 12-hour or 24-hour format, set different languages, and more advanced settings and test options.

Tylö h1 control panel can replace Tylö's CC10, EC50 and CC50 models.

Size: 140 x 80 mm, depth 19 mm. (Art. 7200 1020)

Functions

With Tylö's h1 control panel, adjusting your sauna or steam bath can be performed simply and attractively.

CONTROL PANEL WITH TOUCH-CONTROL ON STEAM SHOWER COLUMN

Hygiene

Descaling agent

Solvent

(Art. no. 9090 3000)

Powder for descaling the water tank in Tylö Combi heaters and Tylö steam generators. Totally odourless and harmless.

Solvent 50

(Art. no. 9090 3007)

As above, in large pack of 50.

Solvent Sulfamic

(Art. no. 9090 3010)

An extremely effective descaling agent for professional use only in public facilities. Sold in 5 kg packs.

Cleansing Kit

(Art. no. 9090 3020)

Removes calcium deposits on shower glass and glazed tiles. Always use the titanium wool ball with liberal amounts of water. Impregnating liquid to protect shower glass and glazed tiles against a build-up of lime deposits.

Tylö Impregnator

(Art. no. 9090 3030)

Preserves and protects shower glass and glazed tiles. Spray on and rinse off with clean water.

Disinfectant

(Art. no. 9002 9100)

For effective disinfecting of sauna rooms. Supplied in 5-litre plastic containers.

Disinfectant

Steam Clean

(Art. no. 9090 8020)

For automatic day-to-day hygiene and disinfection of steam rooms in hotels and public facilities. One hour after completion of the bathing cycle the entire room is automatically flushed with water. A ceiling-mounted sprinkler sprays disinfectant throughout the room and then repeatedly rinses it off with clean water. A security code function ensures that the disinfecting cycle cannot be started by mistake. Steam Clean is therefore the perfect cleaning system for all public facilities.

Mould Remover 450 ml

(Art. no. 9090 3040)

Simply spray on to remove black mould spots quickly and effectively! This mould remover penetrates deep, killing bacteria and mould spores that thrive in the humidity of showers and bathrooms, and helps to inhibit regrowth. Ideal for tiles, joints, shower curtains, plastic matting, etc.

MegaClean 150 ml

(Art. no. 9090 3050)

Kit containing bottle and cleaning sponge. Tylö MegaClean leaves a sparkling result on washbasins, baths, taps, tiles and plastics (for example, bubble baths and steam baths). Tylö MegaClean's unique cleaning action is the result of a carefully balanced mix of cleaning agents and substances that protect surfaces. This makes it easier to remove grime and deposits that normal cleaning agents cannot. Tylö MegaClean is free from environmentally hazardous substances and adds a sparkle to all surfaces that can be washed in water.

Miscellaneous

Collection of essential oils

(Art. 9002 3024)

A collection of five specially selected essential oils in a gift package.

Fragrance dispenser, Tylö Fresh

(Art. 9090 8005)

Fragrance dispenser for saunas, steam baths and wherever else Tylö's aromatic essences may be needed. Operates silently and automatically. Installation distance: max. 2 metres between fragrance dispenser and steam head. Tip! Up to four fragrance dispensers can be connected to a single control panel to vary the fragrance in one or more rooms. Size: 350 x 200 mm.

CC Fresh

(Art. 9090 8009)

Electronic control panel for easy, automatic control of our Tylö Fresh dispenser. Supplied complete with transformer. Can be installed at any distance from the fragrance dispenser. Size: 130 x 190 mm, depth 27 mm.

Tylö Fresh Basic

(Art. 9090 8007)

Same as Tylö Fresh above, but with transformer and simple on/off function to manually control fragrance intensity. Can also be connected to lighting or similar functions. Intended for private use.

Fragrances are available for Tylö Fresh:

(Art. 9002 2033) Lavender 25

(Art. 9002 2030) Eucalyptus 25

(Art. 9002 2036) Citrus 25

(Art. 9002 2031) Peppermint 25

(Art. 9002 2032) Pine 25

Loudspeakers

Loudspeaker A

(Art. 9080 2000)

Steam and heat-resistant design, suitable for recessed installation. 50 W output. Installation size: Ø 117 mm, depth 60 mm. Supplied in pairs.

Loudspeaker B

(Art. 9080 3000)

As above, 50 W, but for surface mounting. Size: 230 x 145, depth 165 mm. Supplied in pairs.

Treat yourself to healthier infrared

Treating yourself to the relaxation and detoxification benefits of infrared technology is now safer than ever. Pure Infra cabins have the lowest electromagnetic radiation (EMR) and electrical field (EF) signatures of any infrared delivery system available—levels far below even Sweden's tough radiation standards. And the exclusive EvenHeat™ system makes sure every single part of you is warmed evenly—providing added comfort and true full body detoxification without the worry of excessive exposure to EMR and EF.

Use infrared cabin in your fitness club or Home spa

In yoga, gym and fitness is a daily sweat acknowledged as one of the single best things you can do to stay healthy. Arteries dilate, improving blood flow throughout the body and relaxing tight or overworked muscles. The production of white blood cells is stimulated, strengthening the immune system. Toxins are flushed out through the skin's pores. In a Pure Infra cabin, the ambient air temperature settles at your preset comfort level— while the safest infrared waves possible penetrate deep into your body, warming you inside and out at the same time. This means you can detoxify comfortably and safely for longer periods. And come out feeling stronger, healthier and in better balance.

WHY INFRARED BATHING?

- **Body-friendly.** Infrared bathing is a safe and comfortable way to detoxify.
- **Time-friendly.** There's no waiting for an infrared cabin to heat up.
- **Planet-friendly.** Infrared technology uses as little or less electricity than many other common household appliances.
- **Family-friendly.** Infrared cabins are safe and easy to use for kids and adults alike.

WHY PURE-INFRA?

- **Safest.** Pure Infra features the lowest EMR + EF of any infrared cabin on the market.
- **Top to toe comfort.** Innovative heating and redistribution systems makes sure the safest infrared.
- **Better body and mind.** The design and ultra low EMR/EF production.
- **Instant gratification.** Pure Infra heats up near-instantly to your preset comfort level.
- **Save more energy.** Pure Infra plugs into a standard wall outlet, and uses up to 20% less energy than other infrared systems.

The healthiest infrared available anywhere

All infrared delivery systems produce EMR and EF to some extent. While the levels are typically low, it is still not clearly understood what the long term effects of low exposure might mean. Pure Infra technology was developed to take the worry out of unnecessary exposure to EMR and EF. For instance, the electrical field in a Pure Infra is less than you'd experience from a computer screen or cell phone. After all, if the point is to detoxify, why expose yourself to any level of unnecessary radiation?

Tylö Infrared therapy

- Good for your mind and body

Better for everyone

A Pure Infra cabin heats up near-instantly to your set comfort level while using up to 20% less energy than other systems.

Full-body heat

The exclusive Even Heat system includes oversized heating panels that ensure infrared waves warm every part of your body evenly. With Even Heat there are no "cold spots" from heat stratification.

CarbonFlex®

Music to your ears

Every Pure Infra cabin model includes a speakerless, touchscreen-operated sound system that provides crystal clear pleasure from your favorite MP3's or the radio.

Easy on the eyes

Pure Infra cabins include tri-modal lighting systems, with soft valance lighting, ceiling reading lights and colour light therapy. This allows you to relax in the soft and diffuse valance lighting.

The lowest EMR + EF

Our exclusive patent-pending technology means Pure Infra cabins produce less EMR and EF than sanctioned by Sweden's radiation standards—the toughest in the world.

Tylö Infra+

Tylö Infra cabins offers seven layouts for a wide choice of installation options.
